

XLH405

XLH405

Multi-functional Green Maintenance Truck

XLH405 Multi-functional Green Maintenance Truck Technical Specification is mainly used for green belt pruning projects on highway, expressway, provincial roads, gardening and landscaping. It can realize flat shear, vertical shear and oblique shear, greatly improve the work efficiency, reduce the labor force and unsafe factors, and enhance the pruning effect. The trimmer can be customized according to the user's operation requirements. It has the advantages of strong power, high operation efficiency and high reliability.

Performance and characteristics

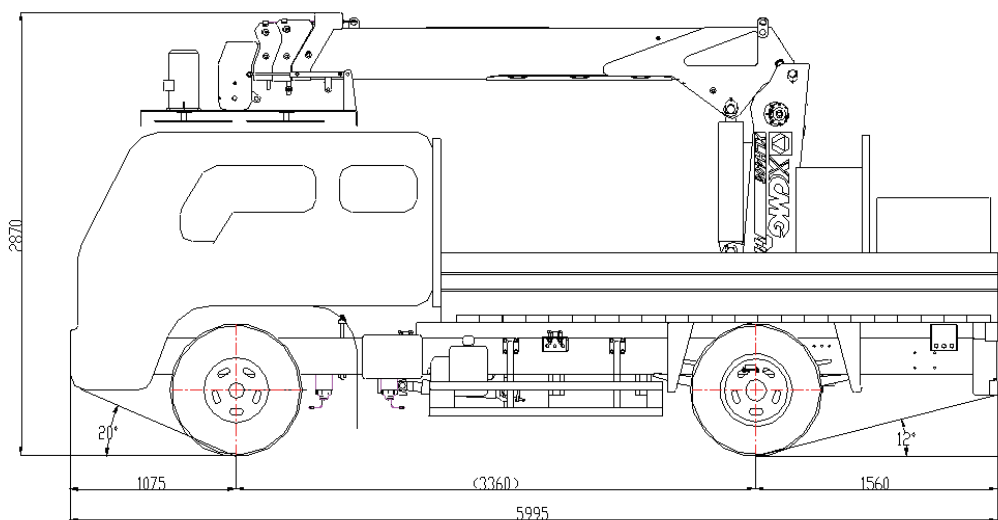

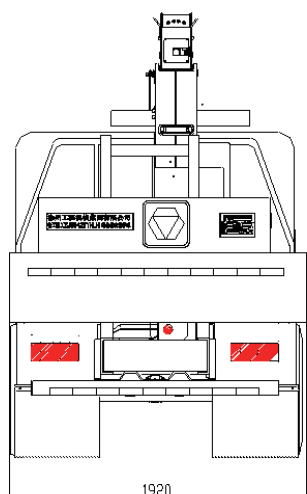

- The hedge trimmer is equipped with double-row chassis in accordance with China V emission standard, which is energy-conserving and environmental.
- The hedge trimmer is equipped with diesel engine, which provides sufficient power and ensures high construction efficiency.

The hedge trimmer is multi-functional, which can be used for the maintenance and trimming of greening plants.

- The hedge trimmer is efficient so that it can finish the work load of 40 persons per day only with one operator.

Main Dimensions

Unit: mm

Main specifications

Item	Unit	XLH405
Product model	-	XLH405
Trimming breadth	mm	1500 ~ 2300
Trimming height	mm	2800 for horizontal trimming - 4000 for vertical trimming
Trimming width	mm	0 ~ 3500
Power of trimming motor	kW	3 ~ 5.5
Power of hydraulic motor	kW	1.5
Trimming speed	km/h	10 ~ 15
Trimming diameter	mm	φ10
Operating voltage of electrical system	V	24 for operation
Rotation angle	°	±180
Weight of independent superstructure	kg	1500 ~ 1800
Overall dimensions (L×W×H)	mm	5995×1920×2870

Notes:

Specifications and configurations may vary depending on options and regional regulations. XCMG reserves the right to make changes to specifications without prior notice.
