

XFY1561

XFY1561

Mobile Screening Plant

Application: used for screening crushed materials.

Suitable for: all sand and gravel aggregates, recycled aggregates.

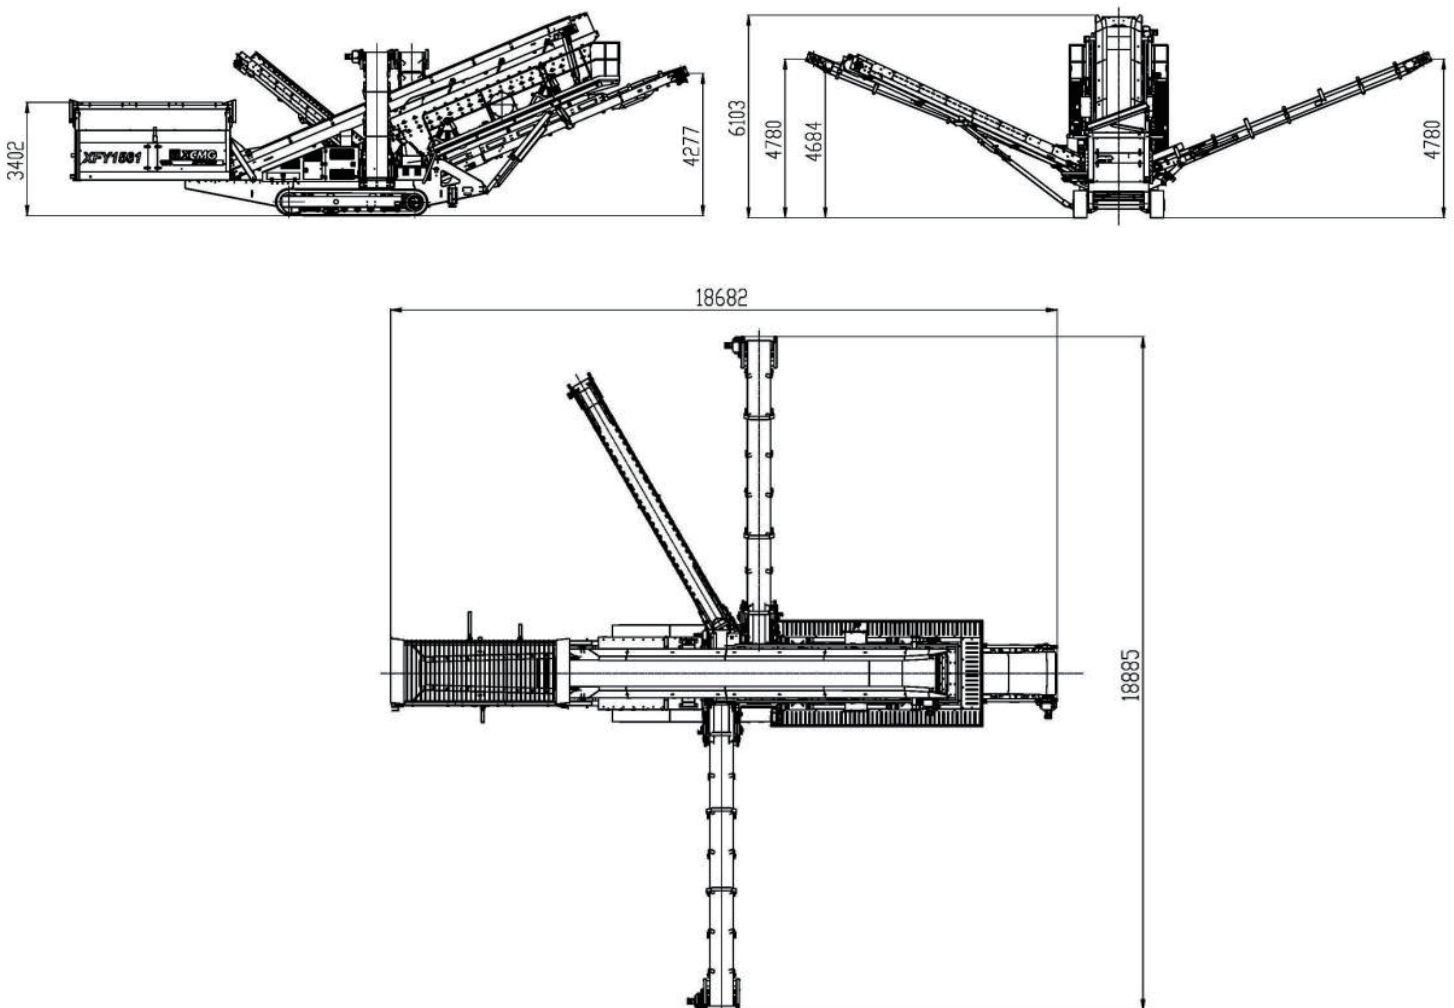

Technical Features

- Equipped with a large area screening machine, complemented by the design of adjustable screening angle, the screening efficiency is higher and the adaptability is stronger;
- Full hydraulic drive concept ensures stable and reliable operation;
Wireless remote control, one-button start and stop,
- intelligent fault diagnosis, real-time monitoring and storage of running status, more convenient for users to operate;
- Folding hoppers and conveyors facilitate simple transportation and fast set-up;
- Equipped with automatic lubrication station for more convenient maintenance.

Technical Specifications

Item	Specification
Product Model	XFY1561
Feed size, maximum	150mm
Screen size (width × length)	1550×6100mm
Crushing capacity	60~300 t/h
Weight	35.5T
Engine power	97kW

Main Dimensions (Unit: mm)
